

## EXTENDED DEADLINES FOR NRF GRANTS APPLICATIONS

Dear Researchers

The National Research Foundation (NRF) has extended the submission deadlines for grant proposals that were scheduled to close on 30 April to 15 May 2020.

The current extension applies to all grant categories as indicated in the table below. Researchers should note that the NRF Online Submission System will not accept applications beyond the 15<sup>th</sup> of May and no amendments can be made on applications after this date.

Researchers who require internal review feedback from the Research Office (RO) are requested to comply with the internal deadlines as no further extensions will be granted.

This announcement comes when the Research Office is in the process of reviewing applications that were submitted for internal review on the 13<sup>th</sup> and 17<sup>th</sup> of April. Applicants who had met these internal deadlines can still expect feedback this week and next week.

These applications will not be reopened for amendment until internal feedback has been provided.
